

STANADYNE More care for your engines

Poor quality fuel can wear components, gum up valves and clog filters. To protect against the variable quality of red diesel, which may damage the latest high pressure injection systems, Stanadyne has developed Performance Formula® fuel additive.

The benefits of using Performance Formula® are:

- Improved fuel economy
- Reduced sludge and other fuel tank contaminants
- Reduced wear
- Increased power and performance
- Cleans and protects fuel system components
- Protects against corrosion
- Helps remove water from fuel
- Provides hot and cold weather protection
- Suitable for use with bio diesel (up to B5/5% bio content).

For your protection, our service department will include this fuel additive in all scheduled services, completed by our workshops.

The following quantities are available from your CLAAS Dealer:

Part Number	Quantity	Treats	
CT38564F	1 Shot (235ml)	120 Litres	£3.50
CT38565F	0.47 Litres	240 Litres	£5.75
CT38566F	1.9 Litres	950 Litres	£21.18
CT38567F	19 Litres	9,500 Litres	£220.50
CT38568F	208 Litres	104,000 Litres	£1,976.40

Prices are for a limited period only so contact your local parts department today.
